

DELMHORST'S NEW FX-20 and FX-30 Moisture Meters for Agriculture

The **FX-20** and **FX-30** are the latest in the new Navigator family of moisture meters from Delmhorst. Uniquely designed for use in the field with a dashboard-like display that is easy to read under most conditions, and large, easy to use navigation buttons.

The FX-20 Hay meter is perfect for large and small volume producers to ensure reliable %MC readings in the windrow or in all size bale packages. Accurate moisture monitoring is essential to reduce mold development, preserve leaves, color and feed value. The FX-20 can be used with various existing Delmhorst hay prods and accessories.

The FX-30 multi-purpose meter features the Delmhorst **EDGE™** app with customizable settings and user-selectable calibrations for **Hay, Hops, Hemp, Brazil Nuts, Tobacco and Dates**. Having a reliable, accurate tool to monitor moisture through each phase of the process enhances quality control and increases profits.

Features:

- Large, custom display with auto backlight – easy to read under all conditions
- On-screen readings statistics – High, Low, Average, Standard Deviation, Last 10
- Moisture Range:
 - FX-20: Hay 6%-40%**
