

# Digital Surface Speed Meter

**Model HSS-\_\_ (110 VAC)**

**Model HSSD-\_\_ (24 VDC)**

The HSS digital surface speed meter consists of an industrial grade heavy-duty surface speed encoder with wheels and a digital indicator. The system delivers repeatable and accurate measurements of surface speed. The dual, anti-slip rubber rimmed wheels are perfect for measuring paper, plastic, laminates and other smooth finish materials. Comes with a four foot cable.
