## GET STARTED

- Download the TrameX Feedback app from the App Store or Google Play.
- Register (in-App) to create an account.
- Remove the Battery tab and dust cover. [Readings can not be taken with dust cover on.]
- Connect the optional contact temperature probe.
- Push in and twist interface cable (1).

- Connect Hygro-i2® probe (2).
- Switch the O/I button to I. This starts the logger transmitting to the app.

## CONNECTING

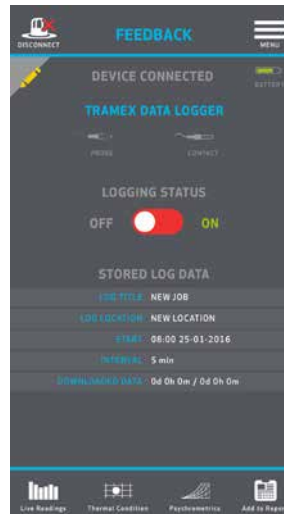

- When transmitting, your Feedback device should appear on the device list.

- Tap to select your device from the list to go to Device Selected page.

- Onsite photos showing RH and temperature values can be taken and saved.
- Tap connect to operate the device.

## DATA LOGGER IDENTITY

- Label each Feedback Data Logger with a different color/number combination to allow easy identification

- Tap the yellow pencil icon to assign it a color and number.
